

## SWISSWELL LUBRICEN KNEE PATCH™ REGISTERED AS A MEDICAL DEVICE IN THE EU

Wellfully Limited (ASX: WFL) (Wellfully or the Company) is pleased to announce that the Swisswell Lubricen Knee Patch™ has been successfully registered as a Class I medical device in the EU, effective April 11<sup>th</sup>, 2022.

- **The Swisswell Lubricen Knee Patch has achieved notification and registration with EUDAMED as a Class I medical device in the European Union.**
- **Registration as a Class I medical device enables substantiated medical claims to be made, substantially enhancing roll-out opportunities with pharmacy partners across the EU markets and strongly augmenting the existing cosmetics device registration.**
- **The EUDAMED registration serves as a platform for similar product registrations across other markets including the US, UK and Australia.**

The Swisswell Lubricen Knee Patch™ was initially launched in August 2021, but only sold through the Company' DTC (direct-to-consumer) channels. Initial feedback from consumers, and as well interest from potential industry partners, has been very positive. A number of initial collaboration evaluations have been initiated across several markets through to December 2021.

With this registration the Company will now be able to execute on existing collaborations, as well as engage with new partners and distributors across the EU markets. This can now be done on a wider scale (in terms of both marketing and distribution) as compared to the cosmetics device registration awarded January 2022. Importantly, the medical registration allows for substantiated pain relief claims to be made by both the Company and its specialist retailers (esp. pharmacies).

The Company will use the EUDAMED registration, as well as the earlier CPNP cosmetics device registration, to support necessary regulatory approvals in other important markets such as the US, the UK and Australia.

## ABOUT WELLFULLY

Wellfully is a fully integrated, science-based wellness company. In addition to our own-brands, RÉDUIT and SWISSWELL, we also offer a portfolio of proprietary technologies and support partners by providing IP and expertise in magnetic array design, feasibility and efficacy, and claims testing, engineering and production.

## ABOUT WELLFULLY'S TECHNOLOGIES

Wellfully has developed a number of physical enhancement technologies based on the interactions between ingredient molecules and weak atomic forces, positioning the Company as a world leader in the science of magnetic fields as they relate to drug or active-ingredient delivery.

The first of Wellfully's magnetic technologies was the Magnetic Microarray. Complex 3-D magnetic fields, produced by low-cost microarray film, influence the movement and penetration through the skin of drugs, active ingredients and formulations at the molecular level. This was licensed and commercialised in 2014.

The second magnetic technology, the Programmable Array technology, employs powered electromagnetic fields that can be altered to suit individual consumer's skincare needs. This was licensed for skincare applications in 2020.

The third magnetic technology uses magnetic fields to alter the wettability of a surface, substantially enhancing contact between liquid and solids. Magneto-Wetting underpins the Company's current developments in haircare, skincare and surface hygiene, in conjunction with Wellfully's recently developed Ultrasonic Misting technology. International patents have been filed.

## FORWARD-LOOKING STATEMENTS

This announcement contains certain "forward-looking statements" concerning Wellfully. Where Wellfully expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis.

Forward-looking statements provided in this announcement are based on assumptions and contingencies which are subject to change without notice. Such forward-looking statements including statements regarding intentions, planned events and potential results are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance.

There can be no assurance that actual outcomes will not differ materially from these forward-looking statements, and there are risks associated with Wellfully and the industry which may affect the accuracy of the forward-looking statements. Wellfully does not undertake any obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this announcement or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

This release has been issued with the authorisation of the Board.
